PROMEDIA

One Platform. Two Languages.  
Total Operational Control.

---

# PROMEDIA RESTAURANTS

UNIFIED HOSPITALITY  
COMMAND CENTER

---

[www.advancedpromedia.com](http://www.advancedpromedia.com)

Every table, order, and guest —  
managed from one place.

---

# SYSTEM OVERVIEW

Promedia Restaurant is a complete, production-ready restaurant management platform built for modern food & beverage businesses. From online ordering and table reservations to POS, catering, inventory, and loyalty — everything your restaurant needs to operate, grow, and delight guests — in both English and Arabic, with full RTL support.

Stop switching between your POS, delivery tablet, inventory spreadsheets, and booking widgets. We've rebuilt the restaurant operating system from the ground up — fully integrated, bilingual, and built for the Middle East market.

---

# DESIGNED FOR: WHO BENEFITS?

## INDEPENDENT RESTAURANTS

Casual dining, fine dining, cafés

## HOTEL F&B

In-hotel restaurant and room-service operations

## CATERING COMPANIES

Event caterers, corporate food providers

## CLOUD KITCHENS

Delivery-only and dark kitchen operators

## FOOD CHAINS

Multi-branch QSR and sit-down brands

# STREAMLINE YOUR RESTAURANT OPERATIONS

## THE PROBLEM

Eliminate third-party fees eating into your profits

End manual inventory guesswork and waste

Stop juggling fragmented systems that don't communicate

## THE SOLUTION

No more switching between POS, delivery tablets, spreadsheets, and booking widgets

Built from the ground up for the Middle East market

One unified platform for total control

# WHAT MAKES PROMEDIA DIFFERENT?

No monthly subscription. No commission per order. Full source code ownership. Custom branding without upcharge.

Purpose-built for restaurants. No bloated plugin ecosystem. Faster, cleaner, purpose-specific admin UI.

## TYPICAL SYSTEM

- ✗ Disconnected POS, website, and inventory
- ✗ English-only or broken Arabic
- ✗ Monthly per-feature fees
- ✗ Outsourced support
- ✗ Manual inventory spreadsheets
- ✗ Separate Marketing System
- ✗ Cash on delivery only
- ✗ Expensive customization

## PROMEDIA RESTAURANTOS

- ✓ Fully unified system
- ✓ True bilingual + RTL native support
- ✓ One deployment on your server
- ✓ Recipe-based auto deduction
- ✓ Integrated Marketing tools and social media
- ✓ Dedicated delivery system
- ✓ Fully customized

---

05

One login. One database. Zero operational headaches.

---

06

# OWN YOUR DATA & FREEDOM

Self-hosted on your own server — no per-order commissions, no monthly SaaS fees, no data locked behind a third party. Pay once, run forever. Full customer relationship ownership. Your data, your control.

**SELF-HOSTED SOLUTION**

**DATA OWNERSHIP**

**TOTAL FREEDOM**

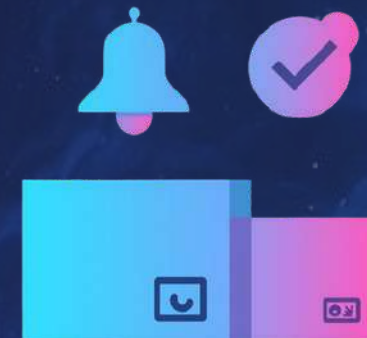

# KEY BENEFITS — MAXIMIZE PROFITABILITY

Boost your bottom line with direct customer relationships and intelligent inventory management that eliminates costly inefficiencies.

## ZERO COMMISSION FEES

No per-order fees –  
Customers order  
directly from YOUR  
branded website. Keep  
100% of your revenue.

## REDUCE WASTE

Expiry alerts and  
recipe-based stock  
deduction prevent theft  
and over-ordering  
automatically.

## SMART COSTING

Auto-calculated food  
cost per dish with real-  
time inventory tracking  
for maximum profit  
margins.

# KEY BENEFITS — SERVE EVERY CUSTOMER

Break language barriers and deliver exceptional service to every guest. Our platform ensures seamless communication with both local and international customers through intelligent bilingual capabilities.

## FULL BILINGUAL INTERFACE

Complete English & Arabic interface with automatic RTL (right-to-left) support built natively into every screen.

## SINGLE MENU ENTRY

Enter menu items once in both languages. Serve local and expat customers seamlessly without duplicate work.

## UNIVERSAL ACCESS

Every customer sees your menu in their preferred language, creating an inclusive dining experience for all.

# KEY BENEFITS — RECOVER HOURS DAILY

Automate the tedious tasks that consume your day. RestaurantOS handles the repetitive work so you can focus on what matters most—delivering exceptional hospitality experiences.

## AUTO-UPDATE INVENTORY

Inventory self-updates with every incoming order. No manual stock counts or end-of-day reconciliation needed.

## SMART FOOD COSTING

Auto-calculated food cost per dish based on real-time ingredient prices. Zero manual spreadsheet work.

## UNIFIED DASHBOARD

One screen for orders, reservations, and staff oversight. Complete operational visibility at a glance.

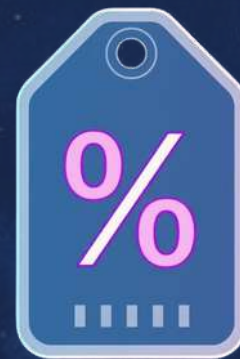

# KEY BENEFITS — DRIVE REVENUE GROWTH

Transform one-time visitors into loyal regulars with powerful marketing tools built directly into your restaurant management platform. No external subscriptions required.

## LOYALTY POINTS

Convert one-time guests into regulars with automatic point earning and redemption. Build lasting customer relationships effortlessly.

## COUPONS & CAMPAIGNS

Launch data-driven promotions with trackable coupon codes. Measure ROI and optimize your marketing spend in real-time.

## EMAIL MARKETING

Built-in email campaigns reach customers directly. No third-party tools required—everything integrated in one platform.

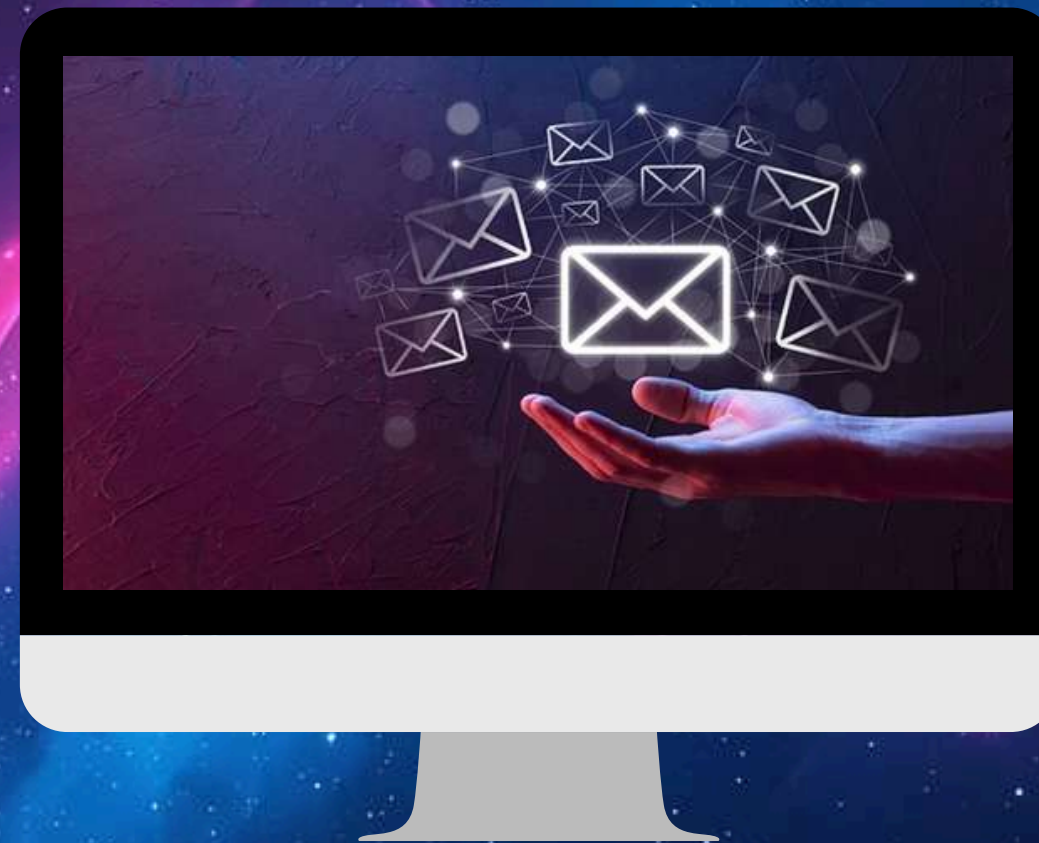

# FEATURE SNAPSHOT

## MULTI BRANCHES

Manage each branch individually and track its operations even on purchase level

## REAL-TIME REPORTS

Instant access to sales trends, inventory levels, and operational metrics across all locations.

## CATERING REQUESTS

Capture events, send professional quotes, and close deals seamlessly.

## LOYALTY PROGRAM

Earn points → return visits → increased customer lifetime value.
