

EVENT MANAGEMENT & TICKETING PLATFORM

NEW HORIZONS IN EVENT MANAGEMENT & BOOKING

AI POWERED MULTI-CURRENCY | BILINGUAL | 3X FASTER | SEO FREINDLY

ADVANCEDPROMEDIA

"Stop paying commission. Launch events in 10 minutes. Keep every ticket amount and every customer relationship."

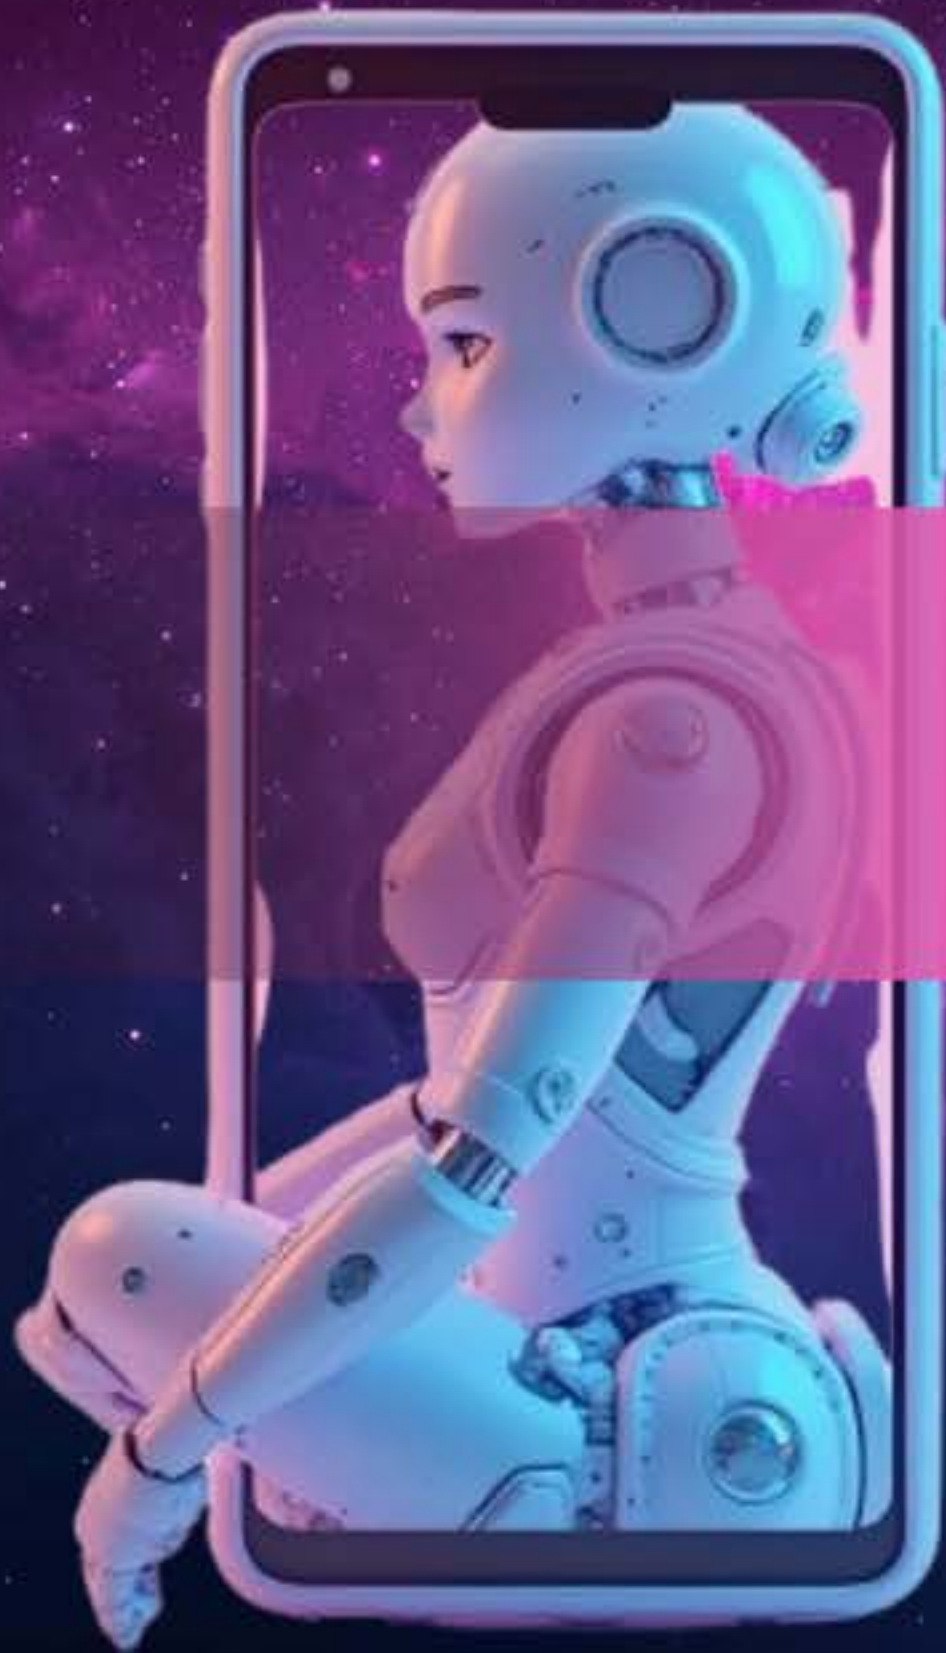

**Smart Organization
Seamless Experience**

VISION

Promedia Events is a complete AI powered, SEO freindly event management and online ticketing platform for ,organizers who need a professional branded website admin control panel, QR check-in, bilingual public site and a matching **Android mobile ,(English & Arabic) app** — hosted on your own server – white label

Through a bilingual and multi-currency interface, it empowers event organizers with the tools they need for complete control, while offering the audience an enjoyable, secure, and seamless booking experience

THE PROBLEM WE SOLVE

01

12-15% commission to competitors → Zero commission, keep 100% of your ticket revenue

02

No customer email ownership → Full ownership + auto-segmentation of your audience

03

Manual check-ins → QR scan: 3 seconds per attendee, works anywhere

04

Fragmented systems → All-in-one: seats, zones, payments, reports in one platform

8 CORE FEATURES

01

Visual Seat Map: VIP, Gold, and Standard zones with no double booking, countdown timer for seamless venue management.

02

QR Ticketing + QR Scan: PDF tickets with unique QR codes – 3 seconds per attendee check-in.

03

White-Label Branding: Fully customize your logo, colors, fonts, and content to match your brand identity perfectly.

04

Secure Payment Gateways: Multi payment optio with multi-currency support and VAT invoices.

8 CORE FEATURES

05

Real-Time Reports:

Track revenue, occupancy rates, and attendance metrics with instant exports and actionable insights.

06

Smart Notifications: Email + in-app bell alerts with fully editable templates to keep attendees informed.

07

Marketing List Builder:

Automated email capture with smart segmentation, fully GDPR + PDPL compliant.

08

Seamless Integration: All features work together in one unified platform—no fragmented systems or third-party dependencies.
